

49-310 310 - Flat Rail Bracket (Satin Stainless Steel 316)

The 310 wall mount handrail bracket has a flat saddle that accommodates rectangular handrail or handrail that is flat on the bottom. It is ideal for level and stair applications. It can be mounted horizontally at a landing or at the end of a ramp. It can also be mounted at an angle for stair or ramp applications. Each bracket includes two self-drilling screws used to connect to the handrail and three wood screws used for mounting to the wall. Mount the bracket to a stud in the wall.

Maximum center-to-center bracket spacing is 4 feet.

Consult local building codes for rail height, wall offset and other requirements.
