

**07641** 70E - Internal Coupling (Friction Fit) (Aluminum Satin Anodized, 1-1/4" IPS)

70E is a series of aluminum internal couplings (splices) that are designed to connect the ends of two equal pipes.

70E is available for 1-1/4" IPS schedule 40 pipe and 1-1/2" IPS schedule 40 pipe.

To insert the coupling, squeeze the 70E using channel lock pliers and insert a small amount. Then drive the coupling in further to the desired position.
