

49-830/424 830 - Internal Splice/Connector For Round Tubing (Satin Stainless Steel 316, 1.67" OD (0.08" Wall))

The 49-830/424 splice is an internal tube splice that is made of 316 grade stainless steel and fits almost entirely on the inside of a tube with the exception of a small center ring in the middle. This center ring has a brushed (satin) finish to match the finish of the tube.

This item is designed to connect the ends of two tubes that are 1.67" round with a wall thickness of 0.08"

Use with stainless steel tube, item# 49-A114.

To ensure a stronger bond, apply adhesive item# LB-00201 and 00211 activator.
