

**51WT-9000/36/F/E** 9000/36/F - Floor Mount 36" Post for Picket Railing (Aluminum White, End)

This 36" High Floor Mount End Post is a 2-1/2" square aluminum post that has two machined holes that are designed to receive the top and bottom rails of one picket rail panel. This post has a white paint finish.

The machined holes in the post allow for the panels to connect to the posts in a clean and seamless way.

Maximum recommended center-to-center spacing for posts is 6 feet.

Consult local building code for specific requirements in your area.
