

KK63-7 KK63 - Angle Base Flange (1-1/4" IPS)

This fitting is similar to KK62, but is used to set up the upright at an angle between 45° to 60°. This fitting should only be subjected to light loads, which cannot be positioned at 90° to the applied load. For greater loads or other pipe sizes, a KK62 flange is used and the upright bent to the required angle. Ø indicates diameter of fixing holes.
