

44-PR53/E PR53 - 24" High Booth Divider Post (Satin Stainless Steel 304, End)

The 44-PR53/E Divider Booth Post is made of brushed (satin) 304 grade stainless steel, 1-1/2" round tube, has a height of 24", and is designed to hold a ¼" thick panel. Each post comes with a half-ball end cap on top, a round flange attached at the bottom, and one u-channel that holds a panel in place.

The u-channel *does not have a stopper* at the bottom and therefore allows for the panel to rest on the flange.

Maximum center-to-center post spacing is 4 feet.

<u>Material Care</u>: Maintain with stainless steel cleaner and protectant, item# CAE-ZCleankIT.

Consult local building codes for rail height, wall offset and other requirements.
