

QS-519 QS-ConcreteAnchor(SocketHead) - Concrete Socket Head Bolt (Satin Stainless Steel 316)

- Heavy-duty sleeve anchor for push-through installation.
- When the hexagon nut or screw is tightened, the cone is pulled into the expansion sleeve and expands tensioning it against the hole wall.
- Made of stainless steel A4 for outdoor applications and damp rooms. Highly corrosion-resistant steel (material number 1.4529) for application in aggressive atmospheres.
